Dhatchana Moorthy R

Junior Software Developer

dhatchuravi13@gmail.com • 9245331200 • **LinkedIn Profile**

SUMMARY

Recent Bachelor's degree graduate with a strong foundation in Core Java fundamentals and JDBC. Seeking an entry-level Java Developer position. Possesses working knowledge of Java and SQL. Eager to learn and apply technical skills in a fast-paced environment, contributing with strong problem-solving and collaborative abilities.

EDUCATION

Government College of Engineering Bargur   **May 2024**

Bachelor of Engineering, EEE
- CGPA: 8.7
- Relevant course work:, Java Programming, OOPs Concepts, Power Electronics

Sri Vijay Vidyalaya Hg Sec School   **May 2019**

- PERCENTAGE: 89
- Relevant course work: English, Maths, Chemistry, Physics, Biology

EXPERIENCE

Software Developer Intern - *Otomeyt, Bangalore, KA*   **06/2023 - 07/2023**
- Acquired expertise in **Java, OOP, JSP, and SQL**, and used Eclipse for development.
- Assisted in web application development, participating in the full SDLC and debugging code.
- Designed and optimized SQL queries for database management and performance enhancement.
- Documented coding standards, utilized Git for version control, and collaborated in Agile teams.
- Worked with Apache Tomcat and gained exposure to the Spring Framework and front-end technologies **(HTML, CSS, JavaScript).**

PROJECTS

Student Result Management System | Link   **07/2024 – 08/2024**

- Technologies Used*: **Java, JSP, JDBC, MySQL, Tomcat, HTML, CSS, JavaScript**
- Developed a web application for managing student records and academic results.
- Implemented secure login systems for both admin and students.
- Managed data storage and retrieval using MySQL and JDBC.
- Deployed the application on Apache Tomcat server.
- Created responsive web pages using HTML, CSS, and JavaScript to enhance user experience.

Institute Registration Application | Link   **05/2024 - 06/2024**

- Technologies Used: **Java, JSP, Tomcat, HTML.**
- Designed and developed a web-based system to streamline and manage the registration process for educational institutions.
- Provided a user-friendly interface for students to register for courses and for administrators to manage student data efficiently.

- Automated the registration process, reducing paperwork and improving the overall efficiency of managing student and course information.

BookSky App | Link   **06/2023 - 07/2023**

- Technologies Used: **HTML, CSS, JavaScript.**
- Developed a web application allowing users to add books, view details, and manage their reading lists.
- Designed a user-friendly and responsive interface for seamless interaction.

TECHNICAL SKILLS

- Java Technologies: **Core Java, J2EE, JSP, Spring Framework, Maven**
- Web Technologies: **HTML, CSS, JavaScript, RESTful API**
- Databases: **MySQL, Oracle, SQL Server, JDBC**
- Development Tools**: Eclipse, JUnit, Git, GitHub**
- Cloud Technologies**: AWS**
- Other Skills: **Backend Development, Software Development, Java Development**

SOFT SKILLS

- Problem-Solving and Analytical Skills
- Strong Teamwork and Communication Abilities
- Critical Thinking
- Continuous Learning and Improvement

CERTIFICATES

- **Certified in JAVA and SQL -** Software Integrated Solutions   02/2024
- **Certified in AWS Cloud Practitioner Essentials -** AWS Training and Certification   03/2024
- **Certified in HTML, CSS, and JavaScript –** Udemy   06/2024

LANGUAGES

- Tamil: Native or Bilingual Proficiency
- English: Professional or Working Proficiency

HOBBIES

- Meditation
- Physical Fitness
- Coding
- Gaming
